CIRCULAR TO AGRICULTURISTS.

THE PHILADELPHIA EXCREMENTUM COMPANY

Are now engaged in the manufacture of Fertilizers, which for their qualities for enriching the soil and producing the most luxuriant growth of vegetation are unrivalled; and taken in connection with its price to farmers, never has been equalled by several hundred per centum.

This Company now offer for sale two Fertilizers, known as "EXCREMENTUM" and "PLEN-URIC." The former is the pure night-soil or human fæcis, deodorized and so treated and put up in tight barrels, that it may be transported to any part of the country; at the same time its original rich fertilizing qualities are much improved. The latter is composed of urine and night-soil, with such other ingredients as to allow of its being put up in cheap barrels, in a condition to be used without further preparation.

The "EXCREMENTUM" is warranted a pure article, and should be mixed with muck, marl, soil, or any suitable absorbing material, in sufficient quantity to make it easy of application.

One barrel of "EXCREMENTUM," or "PLEN-URIC," will produce as great an effect the first year of its application on any soil, as *three times* their cost in any other fertilizer; and the enriching qualities of the "Excrementum" and "Plen-Uric" will remain visible for years beyond the time at which other fertilizers would have lost all their value.

All Agriculturists who would secure to themselves the greatest results from their lands, labor, and money, will at once see the importance of obtaining a supply of the above valuable Fertilizers.

LIFE INSURANCE

BY THE

CONNECTICUT

Mutual Life Insurance Co,

HARTFORD, CONN.

ACCUMULATED CAPITAL over $3,500,000.

Reasons why a preference should be given to the Connecticut Mutual Life Insurance Company.

It is PURELY MUTUAL, and the Policy Holders get all the surplus over the exact cost of Insurance. There are no *Stockholders* to take any of the profits which rightfully belong to those who pay their premiums to the Company. There has been over *One and a half Millions of Dollars* of surplus premiums refunded to the Policy Holders in this Company *during the fourteen years of its existence.*

It is PROMPT IN THE PAYMENT OF LOSSES Two hundred and fifty two thousand nine hundred and nineteen dollars, and fifty eight cents have been paid for losses by death during *the last year*, and over two millions, and two hundred and seventy-six thousand dollars since the organization of the Company, and in no instance has payment been delayed, on the part of the Company, beyond the time it was due.

DIVIDENDS are declared ANNUALLY, and credited to all Life Policy holders, pro rata to the premiums they pay.

DIVIDENDS are paid *during the lifetime of the insured*, thus aiding them in settling future premiums—in cash to those who pay their premiums in cash, or applied to cancel the notes of those who pay their premiums partly by note. *Nearly Two hundred thousand dollars have been thus refunded to the members during the past year.*

It ACCOMODATES the insured in the settlement of their preminms, on *Life* Policies when it amounts to $50.00 or more, by taking a note for one-half of the amount, bearing interest at six per cent. per annum; which interest is to be paid annually in cash.

It is ECONOMICAL in the management of its business. During the last year its expenses have been less than seven and a third per cent. of its receipts, and for several years they have not exceeded an average of seven and a half per cent. and ARE LESS THAN ANY OTHER COMPANY.

It offers as SECURITY a large accumulated fund derived entirely from the premiums paid by members, since the commencement of its operations, in December, 1846—now amounting to more than three and a half millions of dollars, securely invested.

NO LIABILITY of the Insured, beyond their annual premium.

Total amount of Dividends paid, .	**$1,557,692 00**

The Decimal System of Numbering Houses.

One Hundred Numbers are set apart for each square, and the initial or starting-points are at the Delaware River and Market Street.

Persons can, by merely looking at the numbers on the Houses, know how many squares they are from the Delaware or Market Street.

By-Streets are numbered as though they extended to the Delaware or Market Street.

Numbers properly arranged, suggest distances to the mind; but improperly placed, they lead to confusion.

1861.

PREFACE.

The first Directory published in the City of Philadelphia was in 1785, by Francis White, printed in large type and very brown paper, of duodecimo size, containing only 83 pages, with but little regard to alphabetical arrangement, the whole number of names falling short of 4000. The same year there seems to have been another published by John Macpherson, of the appearance of which I cannot say anything, not having a copy at hand. The next was issued in the year 1791, compiled by Clement Biddle, and, with the exception of an addition of sixty-four pages, presents about the same appearance as its predecessors. Subsequently, Directories were compiled by different individuals, at irregular periods, until 1802, when James Robinson published his first edition, continuing annually until 1811, and subsequently for 1816 and 1817. The Directory published in 1801, by Cornelius W. Stafford, was on the plan of a "Street Directory," but the experiment was never repeated. In successive years until 1828, Directories were published by sundry persons, embracing, as far as may be judged, the business portion and housekeepers only of the city and proximate districts.

In the year 1828, the late Robert Desilver issued the first edition of his City Directory, and annually afterwards until 1831, and then semi-annually till 1837, differing in no very essential points from the publications of others, except the omission of the repetition of similar names. The increase of the number of names was very inconsiderable, and certainly not in proportion to the increase of population.

The present compiler of McElroy's Philadelphia City Directory issued his first edition in 1837, confining the enumeration of names *strictly* to persons in business and housekeepers, printed on good paper and handsome type, making 252 pages, and upwards of 31,500 names, very greatly in excess of any other publication of the same kind. Since then to the present year, 1861, McElroy's Philadelphia City Directory has been published annually, except in 1838, when no City Directory was published, and during which year the present compiler made an arrangement with the heirs of the late Mr. Desilver, for a satisfactory compensation in cash, to relinquish in his favor. The first edition of his Directory in 1837 contained only 31,500 names; that of 1860 upwards of 1100 pages, and more than 160,000 names, together with a business department appropriately arranged.

The present edition for 1861 has been compiled with great care, under *his own entire* control and superintendence, the whole having been read and corrected by himself, and contains upwards of 165,000 names.

The canvassing, compiling, printing, proof-reading, and binding have been accomplished

in much less time than usual, the whole number of persons employed being upwards of 120; and it is therefore hoped that the Directory will, in some degree, be free from the usual changes made by removals during the time occupied in compiling and publishing.

This edition of the City Directory embraces the names of residents of the entire Consolidated City, from the extreme Northeast and Northwest to the Southern boundary on both sides of the river Schuylkill.

There will be found, for the convenience of reference, a General Index, an Index to Advertisements, and one to Miscellaneous Record.

The usual difficulties have been encountered in this publication, not the least of which is that of obtaining correct information when the canvassers call from door to door. In almost every instance, at private dwellings, the only source through which this information is obtained being the *domestics* in attendance at the time. Indeed, the canvassers are often surprised to meet with so much *reluctance* on the part of both private persons and others to afford them the proper facilities for obtaining correct statements for the Directory.

The compiler begs to present the twenty-fourth edition of his City Directory to an indulgent public, with the hope that it may meet with general approval.

The amount of labor and money expended on the Philadelphia City Directory as now presented, cannot be appreciated by the public, and the subscriber hopes the income from subscriptions and sales will approximate in some degree to the expenditure.

A. McELROY.
